

NGUYEN QUANG THANG
FLUTTER DEVELOPER INTERN

Dinh Cong Hoang Mai HaNoi • thang2003th@gmail.com • 0393101915

EDUCATION

Hanoi University of Civil Engineering
Bachelor of Information Technology
GPA: 3.0

HaNoi, VietNam
Oct 2022 – Dec 2026

PROFILE

Final-year IT student specializing in Flutter mobile development.

Experienced in building real-world applications including a Spotify-inspired music streaming app and an expense management system using Firebase and REST APIs.

Familiar with Clean Architecture and Git, with a strong focus on writing maintainable and scalable code.

EXPERIENCE

Personal Project

Ha Noi, Vietnam

Capitify – Flutter Music Streaming Application Ha Noi, Vietnam

- Built a Spotify-inspired music streaming application using Flutter with feature-based architecture and Provider state management.
- Integrated Firebase Authentication and Cloud Firestore for user authentication and dynamic data fetching.
- Implemented audio playback features using just_audio, including queue management, shuffle/repeat, seek control, mini player, and persistent playback.
- Designed offline-friendly functionality with caching for songs, artists, recently played items, and session recovery using SharedPreferences.
- Developed responsive multi-screen UI including home feed, search, artist pages, and onboarding flow.
- GitHub: <https://github.com/papper1/Capitify>

OzonBridge – Product Crawling & Ozon Export Tool

Hanoi, Vietnam

- Built a Flutter desktop interface connected to a Python/FastAPI backend for product crawling, processing, and Ozon-ready XLSX export.
- Implemented AI-assisted data processing features, including product normalization, Russian translation, and template-based Ozon mapping.
- Worked with multi-source crawlers for 1688, SHEIN, Etsy, and eBay, focusing on session handling, data extraction, and result formatting.
- Designed dashboard screens to monitor job progress, review processed products, and manage local JSON/XLSX output files.
- GitHub : [papper1/OzonBridge](https://github.com/papper1/OzonBridge)

SKILLS

Technical: Flutter, Dart, REST API Integration, Firebase (Firestore, Authentication), Git (GitHub)

Language: Vietnamese (Native), English (Basic/Intermediate)
